Different Types of Drink Vending Machines

Drink vending machines are typically refrigerated. There are 3 basic types:

- Stack Vendors: Most common drink machine. Solid, dependable units. Typically 8-10 selections.
- Glassfront Vendors: Have more selections, 40-60. Have a 'robot' arm to retrieve the drink and deliver it to the retrieval bin. More complex machine and larger.
- Combo Machines: machine houses pop & snack items. A coil type vending machine, typically with snack items in the top 2-3 trays and drinks in the bottom trays. 'Variable temperature' units have the bottom chilled and the top half ambient temperature, Single temperature units have the whole unit chilled.

An advertisement for Scan & Go Market vending machines. It features a large image of a vending machine filled with snacks and drinks. The text reads: "Scan & Go MARKET", "Self Service Convenience with the Security you Need", "Vending + Micro Market Hybrid". Below the text are four icons: a credit card for "PAY", a hand holding a phone for "GRAB", a barcode for "SCAN", and a shopping cart for "CHECK OUT". A circular logo in the bottom left corner says "Health Safety Feature".

Allows you to stock a wide variety of in-demand, high-margin fresh food, beverages, AND snacks. Paired with snack unit. Up to 65 selections. 2-year warranty. [Scan & Go details](#)
